

Manchester Airport **MEET THE BUYERS**

BUYER CATALOGUE 2025

MANCHESTER AIRPORT MEET THE BUYERS 2025

I am delighted to welcome you to the third annual Manchester Airport Meet the Buyers event.

Today, we have buyers from both private and public sector organisations including Manchester City Council, Allied Infrastructure Management, Atkins Realis, and HSS. Combined they have a purchasing power worth millions of pounds in potential sales and contracts that will directly benefit the local community.

Manchester Airport is proud to connect the North to the world, with more than 50 airlines to around 200 destinations and our £1.3 billion Manchester Airport Transformation Programme due for completion this year. We're a major asset and engine of economic growth, contributing £7.4bn in GVA to the North and supporting more than 20,000 jobs directly on site. As we grow our passenger numbers and the routes we serve, this contribution to the Northern economy is predicted to increase.

It's an exciting time for Manchester Airport and our partners, and we look forward to sharing in the success and opportunities.

Chris Woodroffe
Managing Director, Manchester Airport

THANKS TO OUR SPONSORS

AGENDA

13TH MARCH 2025

RUNWAY VISITOR PARK, MANCHESTER AIRPORT

8:30am

Event Registration.

9.00am

Event Introductions.

Suzanne McCreedy, Chief Commerical Officer, UMi.

Pete Lederer, Chief Operating Officer, Manchester Airport.

9.30am

Buyer/Supplier meetings begin.

10am – 10.45am

MAG - Green Horizons: A Blueprint for Environment & Biodiversity at MAG.

Martin Churley, Group Head of Environment & Sustainability, MAG.

11am – 11.45am

Manchester City Council - Support for Business & Social Value.

Mike Cunliffe, Work & Skills Lead, Manchester City Council.

12pm – 12.30pm

Greater Manchester Chamber: Overview of Support & Business Landscape.

Lewis Crowe & Chris Fletcher, Greater Manchester Chamber of Commerce.

12.30 - 1.30pm

Lunch Break

1.30pm - 2.15pm

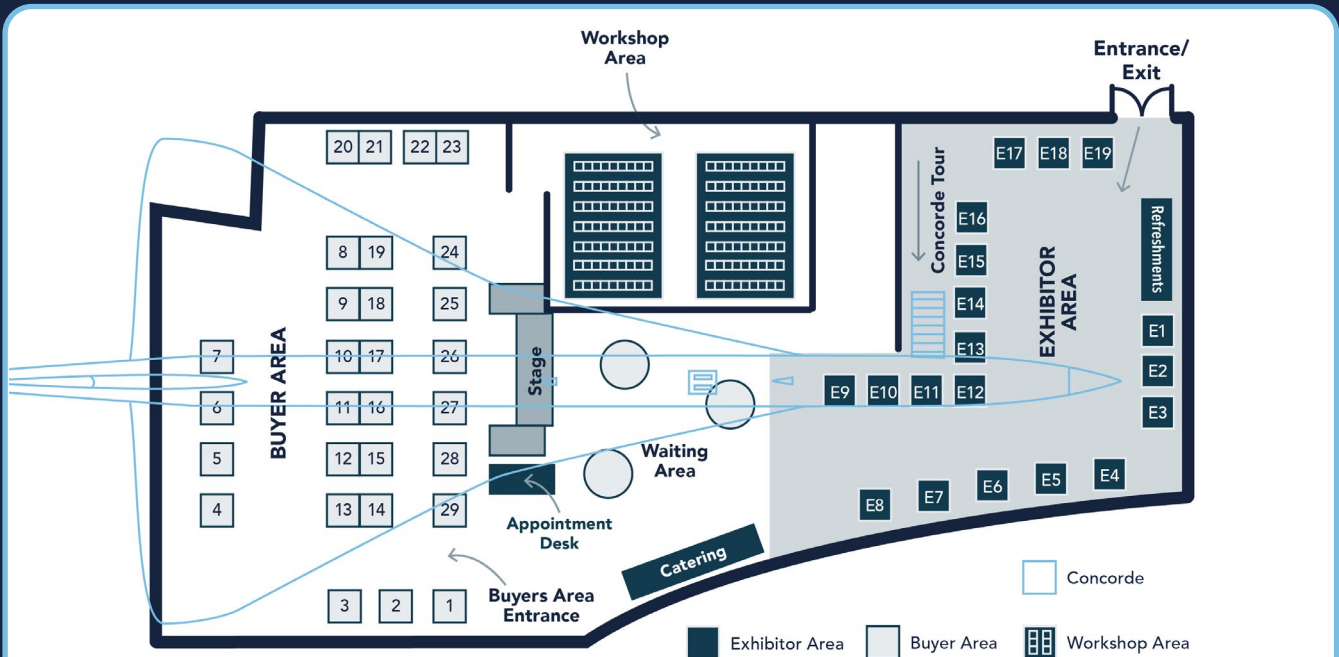

Executive Compass - Top tips to improve your tender score.

Matthew Walker, Managing Director, Executive Compass.

4.00pm

Buyer/Supplier meetings finish & event closes.

ABOUT

Agilité Solutions is the international commercial interiors specialist with the proactive mindset. Clients often comment on Agilité being unlike any other international commercial interiors specialist in the market – in fact many actively seek us out because of this differential. And defining exactly what makes us special, is quite simple.

Specialising in office, retail, and hospitality fit outs across Europe, we are unswervingly customer service orientated and offer a bespoke set of service options – from due diligence, sustainability guidance, space planning and design, through to strip out, installation, furniture recycle schemes, dilapidation advice, and final delivery.

Whether clients require one or two elements of guidance, or end-to-end support, projects take shape collaboratively, with strong lines of communication, innovation, and best-value solutions at the heart.

ABOUT

We are BAM UK & Ireland, part of the Royal BAM Group. For 150 years, we have been shaping the UK & Ireland's vital infrastructure and creating many of the country's most iconic buildings.

We deliver construction, civil engineering, infrastructure, property development and facilities management projects in the public and private sectors. We use the latest digital technologies and modern methods of construction to deliver in a lean, green, and more efficient way.

We want to leave our world a better place than we found it – to build a more sustainable tomorrow. We've set an industry-leading carbon target to become net zero in our direct operations by 2026 and we're supporting our clients to create more sustainable places.

Visit us at: <https://ukandireland.bam.com>

BAM is proud to be supporting MAG's Meet the Buyer event. We embrace a culture of partnership and forge strong alliances with both our clients and our supply chain partners.

People are at the heart of everything we do. We employ great people, who we value and support. We prioritise our relationships with our client and supply chain partners. And we strive to strengthen communities and transform lives in the places where we work, leaving a lasting social impact legacy.

ABOUT

A Manchester based civil engineering company with a history dating back to over 150 years.

Bethell Construction Limited are a long-established integrated infrastructure services business undertaking multi-discipline construction, engineering and maintenance for transportation, utility and environmental sectors for both local authority and private sector clients.

We can offer clients intelligent solutions from initial design collaboration through to construction and ongoing maintenance services for both public and private infrastructure.

Operating predominantly in the North of England, we are Framework partners with over 10 local authorities and operate on civils frameworks with private sector clients such as Manchester Airport Group and United Utilities.

With plans to achieve carbon net zero by 2050, we are delivering initiatives to reduce carbon emissions and actively engaging with new technologies that allow us to report and monitor our performance, contributing to our environmental social value objectives.

As a local contractor, delivering benefits to our local communities sits at the heart of our business as we continue to improve peoples lives and reduce the cost to society.

ABOUT

Established in 1969 by Gordon Anderson, GAP Hire Solutions leads the UK's equipment rental industry, offering an extensive range of construction equipment for hire.

With 10 divisions and nearly 200 locations nationwide, we serve as your one-stop solution for all your equipment needs. Our comprehensive offerings encompass reliable solutions, including plant machinery, tools, welfare units, non-mechanical equipment, pumps, trenching and shoring solutions, tankers, lifting gear, survey instruments, and event services. We maintain the highest quality standards by continuously investing in our fleet, ensuring that our customers receive the very best equipment with every hire.

With over 50 years of operation, GAP remains a family-owned and operated business. This structure enables us to make prompt decisions, delivering solutions to our customers more swiftly than our competitors.

Our commitment to innovation is evident through our ongoing digitization efforts, which empower us to adapt our business model to provide new opportunities and solutions for our valued customers. At GAP, Health and Safety are paramount. We work tirelessly to ensure not only the safety and fitness of our equipment but also the well-being of our clients and employees.

While our business originated in Scotland, we have expanded to offer full national coverage across the UK. Furthermore, we provide services in Jersey, Guernsey, and the Channel Islands, ensuring that GAP is readily available wherever you need us.

GARIFF JOINERY - CONTINUED

STAND
14

ABOUT

Gariff Joinery commenced trading as a partnership between two brothers in 1986 and in 1993, Gariff Construction Ltd was formed. We quickly established ourselves in the joinery, fit-out and construction industry working for carefully selected clients.

In September of 1998, we relocated into our 38,000 sq.ft purpose built offices and manufacturing facility in Trafford Park, Manchester. Our workshop includes an extensive and expanding range of machinery which affords us a much greater scope of in-house manufacture than most of our competitors. This allows us to keep up with the increasing demand for fast production of high quality specialist products.

We have carried out fit-out and joinery contracts from £50k up to £10m for many airports, football clubs, retail units, hotels, shopping centres, public and commercial buildings. Our contracts generally incorporate all installation and finishing trades, the majority of which we keep in-house, giving us greater control and flexibility.

We pride ourselves upon our exemplary safety record and the Level 5 rating accreditation with Achilles Building Confidence. In addition, we consider quality in all areas of our work to be paramount. We have built a reputation and regular client base based upon our straight-forward approach, quality and flexibility on site and in our manufactured work and in 2005 were accredited BS EN ISO 9001:2008 for manufacture and construction works.

Smas Worksafe is one of the UK's leading providers of health and safety assessments and a national leader in providing full form SSIP (Safety Schemes in Procurement).

Having been established since 2006, we've gained a lot of experience in the field of health and safety and we're experts at helping businesses manage their health and safety obligations.

We understand that keeping on top of health and safety and all that this entails can feel overwhelming, which is why we made it a priority to ensure we have a highly qualified team on hand to help make the process as simple, and smooth, as possible.

To show our commitment to this, we ensure every assessor completes the SSIP Assessor Training and in addition, they are then audited by an independently appointed SSIP Auditor.

ABOUT

VolkerFitzpatrick is one of the leading engineering and construction companies in the UK. We provide specialist multi-disciplinary engineering solutions to a wide range of markets to deliver a truly integrated service for our clients. We are proud to say our history dates back over 100 years, and currently turns over more than £600m per year, ensuring we are able to meet the growing demands of today's construction industry. Our specialist capabilities are the heart of our business; as a supply chain partner we work nationally to solve complex challenges in all kinds of diverse environments. Our proven expertise in delivering successful projects in a wide range of sectors include rail and depots, buildings, highways, airports, ports and defence.

We have a long and successful association with various airport operators across the UK and have gained a reputation for innovation and best practice through the delivery of over 55 aviation related projects in the last 10 years. Our capability extends from runway, taxiway and apron rehabilitation, including the replacement and upgrade of all associated infrastructure such as Airfield Ground Lighting (AGL), drainage, line marking and mechanical and electrical systems, to landside infrastructure works such as access roads, car parks, flood attenuation and external security gates.

PROLECTRIC

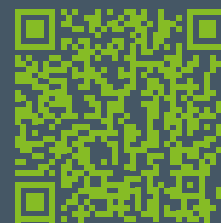

GOLD SPONSOR

STAND E1

ABOUT

At Prolectric, we engineer off-grid Solar Lighting and Power products that are an alternative to traditional mains or diesel-powered products. We have installed over 10,000 solar streetlights up and down the UK and were UK's first manufacturer. Since 2011 we have proven our solar lights work consistently in the UK, even during a Scottish winter. Our solar lights save customers thousands of pounds on grid connections, cabling and installation, and ongoing cost of power. We also manufacture the world's most advanced Solar Hybrid Generators and Solar Temporary Lighting Towers, that are alternatives to traditional diesel-powered generators and tower lights. As the UK's off-grid solar and battery experts we have created products that are smart and autonomous, enabling remote management and monitoring for complete peace of mind. On average, our solar generator saves customers on average £17,500 annually on diesel and maintenance. On average over a 7-year period, users save £88,000 per unit and is cost neutral after 2 years and 5 months. It also reduces the CO2 emissions by over 25,000 kgs per annum.

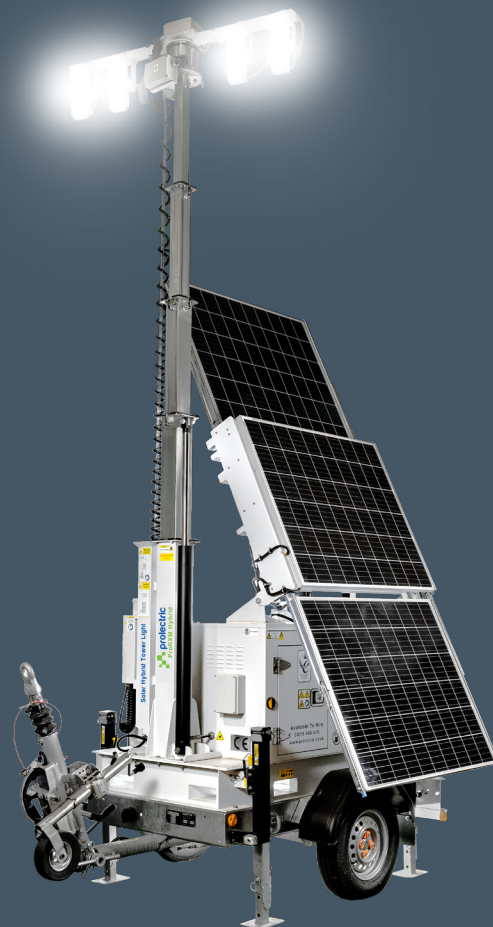

OFF-GRID POWER AND LIGHTING SPECIALISTS

As the UK's leading Solar Manufacturer, we are the experts in:

- Solar Generators
- Solar Lighting Towers
- Solar Street Lighting
- Solar CCTV Towers

By switching just one traditional diesel generator to our ProPower Solar Hybrid Generator, you could save on average **9,473** litres of fuel annually, equivalent to **£14,683** and mitigate **25,388** kg CO₂e.

Advanced Technology

Remote control, monitoring and reporting capabilities.

Reduced Emissions

Significant CO₂ emissions savings vs traditional diesel generators.

Reduced Fuel Usage

The ProPower can cut fuel usage by up to 90%.

Reduced Noise

Silent power from battery storage, ideal for urban & night projects.

Minimal Maintenance

Reduced generator run-time means less maintenance.

AIRSIDE SERVICES

Speedy Hire provides dedicated airside services with one point of contact for all airport contractors.
